

CONSUMER ACCESS SYSTEMS AND METHODS FOR PROVIDING SAME

Abstract of the Disclosure

5 Apparatus and methods for providing enhanced consumer access to information sources and controllable entities. An Access device can be a stand alone device such as a DVD player in which the DVD disk contains the back-end information network. Other Access devices obtain the back-end information network from remote sources. By way of a specific example, the consumer can then view a game and interactively select every television camera located at the game venue.
